

Link up. Log on. Let's Go!

3 easy steps to wireless

1

Install a WiFi card in your laptop or PDA. Set your SSID to smartspot. (If you are using Windows XP search for the SSID)

2

Open you web browser. You will be redirected to the sign-up and login page.

3

On the login page that appears in your browser, either sign-up for an account or log in. That's it!
